Professional Summary

Experienced VMware Administrator with over 10 years of expertise in managing large-scale virtualization environments. Proven track record in executing end-to-end VMware Cloud Foundation (VCF) migrations and upgrades, including NSX firewall design and HCX bulk workload transfers. Expert in maintaining high-availability environments across vSphere 6.5 to 8.0, specializing in VxRail upgrades, DR solutions with SRM, and automated hardware management via Dell-OME.

Skills

- VCF, NSX, VMware Administration, Windows Server Administration
- VCF Cloud Migration, HCX Deployment, VM-SRM, RP4VM
- Dell OME Administration, Microsoft Excel Proficiency, ITIL Framework

Professional Experience

Tata Consultancy Services - Assistant Consultant | 03/2015 – Current

Project: DNB Bank – System Administrator | 10/2024 – Present

- Executed migration of virtual machines from VMware on-premises to VMware Cloud Foundation with minimal downtime.
- Validated network connectivity and application dependencies with VMware Aria Operations for Networks (vRNI).
- Designed and implemented NSX firewall rules for east-west and north-south traffic per enterprise security policies.
- Performed bulk VM migration with VMware HCX, utilizing mobility groups for efficient workload transfer.
- Upgraded VMware Cloud Foundation from version 5.2.2 to 5.3.0 with no disruption to production workloads.
- Collaborated with cross-functional teams to facilitate successful cutover and ensure thorough post-migration validation.
- Configure the SRM DR solution

Project: DNB Bank – System Administrator | 07/2020 – 09/2024

- Implemented virtualization solutions using VMware vSphere 6.5, 7.0, and 8.0, including DR with Site Recovery Manager.
- Upgraded ESXi hosts and vCenter appliance servers to enhance system performance and stability.
- Troubleshoot ESXi server cluster and VM-related issues, ensuring operational continuity.
- Performed VxRail code upgrades and managed updates for VMware appliances (Aria Operations, SRM, RP4VM).

Project: Fifth Third Bank – System Administrator | 04/2018 – 06/2020

- Configured and monitored Windows Server VMs and upgraded legacy servers (2008 to 2012).

- Scheduled and deployed Windows patches using IBM BigFix.
- Delivered Level 2 support for Citrix XenServer, addressing session and VDI issues.
- Managed IP reservations on Infoblox and maintained CMDB records for Windows VMs.

Project: ShawCor – Support Executive | 04/2018 – 06/2020

- Windows Server: Installation, L1 level troubleshooting on HP, DELL and IBM server, Space issues on physical and virtual server
